To seek a challenging career with a progressive organization which will utilize my skills, abilities, and education to execute, accomplish and excel for personal and company's growth.

Experience:

- ➢ Working as Network Engineer L2 in REDCENTRIC since Feb 14th 2023 to till now
- ➢ Working as Network Support Engineer in Tek systems since July 15th 2021 to 2023
- ➢ Worked as Data Center Engineer in Magna info tech between 15th Apr 2019 to 2021

Academia:

- ➢ Qualified in B.COM computers in the year of 2014 from Sai ram degree college
- ➢ Qualified in Intermediate in the year of 2011 from SV Jr college
- ➢ Qualified in 10th in the year of 2009 from SVHS school

Network Course Completed:

- ➢ Certified in CCNA through online Udemy
- ➢ Certified in CCNP through online Udemy
- ➢ Data Center Operations
- ➢ Palo Alto firewall
- ➢ Fortinet Firewall
- ➢ Prisma SD WAN
- ➢ Cisco Meraki & Cisco wireless LAN controller

Network Protocols:

- ➢ OSI, TCP/IP Protocol Suite, Ethernet, DHCP, DORA, RIP, EIGRP, OSPF, BGP, HSRP, L2/L3 Switching, VLAN's, VTP, SNMP V2, V3, ICMP, STP, ACL, Router Map's

Knowledge on Network Devices:

- ➢ Prisma SD WAN, Palo Alto firewall, Cisco firewall, Fortinet firewall, Cisco switches & Routers, Cradle point, Cisco Prime, Cisco Wireless LAN Controller, Infoblox server

Monitoring Tool

- ➢ PRTG, Solar Winds, Since logic, Logic Monitor

Technical Experience along with Roles & Responsibilities:

- ➢ Working as Network Engineer L2 in Redcentric and managing UK clients through remote
- ➢ 5 Plus Years experience on Cisco Routing/Switching along with troubleshooting/configuration of new devices
- ➢ 3 Years experience on FortiGate & Forti Manager & Forti Analyzer
- ➢ 2 Years experience on Data Center Engineer (where the physical hardware like routers/switches/servers/firewalls and cables are placed)
- ➢ Good knowledge in physical rack & network hardware device mounting and decommission
- ➢ 3 Years experience on Palo alto & Prisma SDWAN & cisco AP's & Meraki AP's and Nexus switch
- ➢ 2 years hands-on experience on MPLS and troubleshooting
- ➢ Strong hands-on experience on configuring cisco router & switches along with stack switches
- ➢ Strong hands-on on upgrading firmware of Cisco routers/switches, stack switches, FortiGate & Cisco ASA firewalls, NetScaler load balancers, Meraki APs and switches
- ➢ Good hands-on experience on MPLS and MPLS packet flow & troubleshooting
- ➢ Good hands-on experience on VRF's and troubleshooting process
- ➢ Good hands-on experience Fortinet/Palo alto/Cisco ASA UTM features WEB/APP/DNS/IPS & IDS/SSL/AV/DOS profiles
- ➢ Good hands-on experience on Static, Default, EIGRP, OSPF, iBGP & EBGP routing protocols
- ➢ Hands on experience on 800K, ISR4351, ASR1002 ASR9K IOS-XE & IOS-XR
- ➢ Hands on experience on switch attributes VTP/ STP/ BPDU/ NTP/ SNMP/ ICMP/ TACACS/ VTY
- ➢ Good knowledge on Source NAT & Dynamic NAT & PAT and Policy creation
- ➢ Good knowledge in configure HA (Active/ standby)
- ➢ Coordinating with UK clients to handle major P1/P2 troubleshooting tickets through remote support
- ➢ Managing large scale WAN/LAN/Wireless/latency network issues through remote
- ➢ Hands on in IBGP and EBGP configuration and troubleshoot, attributes, BGP full mesh, split horizon, route reflector, community, TTL & BGP states
- ➢ Monitored WAN links for latency, packet loss, and jitter issues using SolarWinds, PRTG, and other monitoring tools
- ➢ Create Bi-weekly report and present in front of Higher authority

DECLARATION

I hereby declare that all the statements made above, and information given in this is true. Yours

Sincerely,

S. Mahesh
